That's fine with me. But you should check in with Erin for a download of the call with the state folks last Thursday. They had an action item of going back and thinking about what it is they want, if anything, at the programmatic level. Mark E. is strongly pushing for some kind of programmatic buy-in, and I asked them to figure out what that means to them, given that 404 is a project level permit.

That may take some additional back and forth.

Thanks Tom,

I'll take it from here. I am going to have this reviewed and approved with whatever edits we need by the Corps (CESPK), and then I will have it signed by the Colonel and then send to the other agencies to sign so this thing gets finished.
